

FileHandler

```
classDiagram
    class FileHandler
    class RawFileHandler["forcebalance.output.RawFileHandler"]
    RawFileHandler --|> FileHandler
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'FileHandler'. Below it is a larger, shaded box labeled 'forcebalance.output.RawFileHandler'. A blue arrow points from the top of the shaded box up to the bottom of the 'FileHandler' box, indicating that 'forcebalance.output.RawFileHandler' inherits from 'FileHandler'.
