

forcebalance.molecule.Molecule.read_qcin

```
graph LR; A[forcebalance.molecule.Molecule.read_qcin] --> B[forcebalance.molecule.Molecule.split]; A --> C[forcebalance.molecule.isfloat];
```

A diagram showing a hierarchical structure. A root node on the left, labeled 'forcebalance.molecule.Molecule.read_qcin', has a light gray background and a black border. Two blue arrows point from the right side of this root node to two child nodes on the right. The top child node is labeled 'forcebalance.molecule.Molecule.split' and the bottom child node is labeled 'forcebalance.molecule.isfloat'. Both child nodes have white backgrounds and black borders.

forcebalance.molecule.Molecule.split

forcebalance.molecule.isfloat
