1 Project Roadmap

ForceBalance is a work in progress and is continually being improved and expanded! Here are some current and future project development ideas.

1.1 Short Term (summer 2013)

- · Create and expand project unit testing framework to encourage a test driven development approach
- Improve/consolidate existing documentation

1.2 Long Term

- · Development of a ForceBalance GUI interface to complement the current command line interface
- More comprehensive tutorial to walk users through the initial process of setting up targets and preparing for a successful ForceBalance run
